17. Additional information

a) Additional data:

The variety concerns a hybrid.

Resistances to Tomato Mosaic Virus (ToMV), Verticillium dahliae, Fusarium oxysporum f. sp. lycopersici, Cladosporium fulvum and Meloidogyne incognita have been tested by Naktuinbouw. According to the applicant the variety is resistant to Cladosporium fulvum race 0, Pyrenichaela lycopersici, Fusarium oxysporum f. sp. radicis lycopersici and Tomato Mosaic Virus (ToMV) strain 1-2.

b) Remarks:

-
